BUREAU OF STANDARDS, METROLOGY AND INSPECTION  
MINISTRY OF ECONOMIC AFFAIRS  
REPUBLIC OF CHINA

## PREFACE

The Bureau of Standards, Metrology and Inspection (BSMI) under the Ministry of Economic Affairs (MOEA) is the authority responsible for the establishment and promotion of National Standards of the Republic of China (CNS) in Taiwan. CNS Standards are established by consensus and promulgated by MOEA after the final review performed by the National Standards Review Council, which is comprised of representatives from the related interested parties, experts, manufacturers, academia and government departments. CNS Standards can provide common and repeated use, rules, guidelines or characteristics for products, processes and services.

Being the national standard body in Taiwan, the BSMI bears the responsibility to develop and operate a standardization system that is relevant and can effectively respond to the needs of national policies and industrial and social development, as well as keep pace with scientific and technological advancement by way of actively harmonizing CNS Standards with international standards. Through these dedicated efforts, BSMI can make a meaningful contribution to enhance the overall living quality, support the technical upgrade of industry and reduce technical barriers of foreign trade.

To facilitate the public to access the CNS Standards easily, the BSMI provides the “CNS Online Service” (<https://www.cnsonline.com.tw>) information system, which can provide the related information of CNS Standards, e.g. full text of CNS Standards, historical search for each superseded CNS Standard, up-to-date information of the most popular CNS Standards, etc. Previewing the full text of each CNS Standard on this information system is free.

By the end of 2022, the number of current CNS Standards in Chinese amounts to 11,859, of which 1,543 CNS Standards in English version are available. This catalog will act as a useful guide for you to look for the targeted CNS Standard you need.

## **HOW TO USE THE CATALOG**

Each CNS Standard is identified by one CNS number and one Category number.  
Two examples of the elements of each entry are illustrated below:

Example 1: \* 560 A2006 2018-04 Steel bars for concrete reinforcement  
(1) (2) (3) (4) (5)

Example 2: 1086 A1008 withdrawn Dimensions of concrete pipes (→CNS 483)  
(6) (7)

Illustration :

- (1) English version is available ("\*" denotes there is English version of the corresponding CNS Standard)
- (2) CNS number
- (3) Category number
- (4) Date of current edition, year - month
- (5) Title of standard
- (6) This edition of standard is withdrawn
- (7) The withdrawn standard is replaced by other CNS standard shown in the parentheses
